

## KISSA-1D® END-USER LICENCE AGREEMENT

This Agreement sets forth the terms and conditions of your (Licensee) use of the accompanying KISSA-1D® software version 1.2 (the "Software").

Copyright 2009-2017 KISSAGROUP

YOU SHOULD CAREFULLY READ THE FOLLOWING TERMS AND CONDITIONS BEFORE USING THIS PRODUCT, IF YOU DO NOT AGREE TO THE TERMS AND CONDITIONS OF THIS AGREEMENT, DO NOT USE THE SOFTWARE.

### 1. LICENSE GRANT

1.1. The Software (including USB dongle used for Software protection) is provided for the purposes of use in research or educational activities within the Licensee's organization.

1.2. Licensee may install the Software on one or more computer in the Licensee's organization and designate one or more persons in the Licensee's organization ("Named Users") the right to use the Software, provided that only the Named Users use the Software. The Software will function only on the computer to which the USB protection dongle is attached.

### 2. RESTRICTIONS

2.1. Licensee may not modify, translate, reverse engineer, decompile, disassemble or create derivative works based on the Software.

2.2. Licensee is specifically prohibited from publishing for others for copying, selling, modifying, merging, assigning, redistributing, leasing or transferring in any way to a third party the Software or any portion thereof.

### 3. TERMINATION

If in violation of this agreement, this agreement can be terminated upon a written request from the Developers. Licensee agrees to return the USB dongle to the Developers within 10 days of the termination notice.

### 4. COPYRIGHT

All title, copyrights and other intellectual property rights in and to the Software are owned by the Developers.

### 5. NO WARRANTIES

The Software is provided "as is" without warranty of any kind. The Developers do not accept responsibility for any harm that may be caused as a result of using the Software.

### 6. CITATION

Licensee agrees that the following citation be included in any publication where KISSA-1D® is used for the work: C. Amatore, O. Klymenko, I. Svir. A new strategy for simulation of electrochemical mechanisms involving acute reaction fronts in solution: Principle. Electrochem. Commun. V.12, 2010, pp.1170-1173 and web site address: (<http://www.kissagroup.com/>).
